

REVENEZ®

A consultation aid as unique as you are.

REVENEZ® is a consultation app for tablets or touch screen computers that puts what you need for an engaging and effective consultation experience at your finger tips. It is built with the features you choose.

- Welcome and meet the team
- Before and after gallery
- Educational videos
- Sketch tool with anatomy library
- Did you know quizzes
- Options such as: pre-op and post-op instructions, your custom videos, links to financing, etc.

Zoom into before and afters with a tap. Present educational videos with a touch. A favorite feature of REVENEZ is the sketch tool. While marking up an anatomy drawing, any remaining questions or concerns can be addressed. Since it's release in 2002 REVENEZ has helped practices increase comprehension and communication between patients and staff.

Pricing

One-time customization fee \$2,000

Monthly \$350

“

REVENEZ® is the most important addition to my consultation, since I began practicing 24 years ago.

*David L. Mobley, MD
client since 2004*
